**JUPITER TELECOMMUNICATIONS ANNOUNCES
SEPTEMBER 2006 SUBSCRIBER FIGURES**

Tokyo, Japan -- Jupiter Telecommunications Co., Ltd. (J:COM; JASDAQ: 4817), the largest multiple system operator (MSO) in Japan based on the number of customers served, has announced that the total subscribing households as of September 30, 2006 served by J:COM's 25 managed franchises reached 2.25 million^{*1}, up 12.7% since September 30, 2005. The increase is attributed to growth of the subscribing households in existing service areas and the addition of newly consolidated franchises. Combined revenue generating units (RGUs) for J:COM TV, J:COM NET and J:COM PHONE reached over 3.96 million^{*1} overall, up 529,100 units or 15.4% from the year earlier. The bundle ratio (the average number of services received per subscribing household) rose to 1.76 from 1.72 the year earlier. Details follow in the table below:

^{*1}Excluding the number of the subscribing households for Cable West Inc.

For reference, subscriber information for Cable West Inc. that became a subsidiary at the end of September 2006 is provided in a separate table because it is preliminary and subject to adjustment until we have completed our review of such information and determined that it is presented in accordance with our policies.

Year-On-Year Subscribing Household Comparisons: (Rounded to the nearest hundred)

	Revenue Generating Units				Total Subscribing Households
	J:COM TV	J:COM NET	J:COM PHONE	RGU Total	
As of September 30, 2006	1,864,700	992,600	1,104,300	3,961,600	2,250,000
	Digital: 878,300				
As of September 30, 2005	1,684,900	837,700	909,900	3,432,500	1,996,100
Net year-on-year increase	179,800	154,900	194,400	529,100	253,900
Net increase as percentage	10.7%	18.5%	21.4%	15.4%	12.7%

Note: The table above references subscribing household totals for companies managed by J:COM.

September 30, 2006	595,904	265,411	44.5	41,677.56
December 31, 2005	516,457	251,445	48.7	39,511.48

(Notes)

Number of outstanding shares at the end of the term (consolidated): As of September 30, 2006 term: 6,368,198 shares
 As of December 31, 2005 term: 6,363,840 shares

(3) Consolidated cash flow statement

	Cash flows from operating activities	Cash flows used in investing activities	Cash flows from financing activities	Balance of cash & cash equivalents
	(Millions of yen)	(Millions of yen)	(Millions of yen)	(Millions of yen)
September 30, 2006	52,502	(96,966)	19,084	9,903
September 30, 2005	42,917	(41,249)	25,867	37,955

3. Business Results and Financial Conditions**(1) Business Results (comparisons are year-on-year)**

The business conditions surrounding the Jupiter Telecommunications consolidated group (J:COM Group or Group) have further intensified as a result of the progression in the fusion of the broadcasting and communications industries. During the nine months ended September 30, 2006, the J:COM Group steadily carried out its "Volume plus Value" strategy, with focus on increasing the number of customers served (expanding volume) while raising average monthly revenue per subscriber (increasing value).

In terms of volume strategy, the J:COM Group strengthened its sales and marketing capabilities and continued to actively promote bulk contracts with multiple dwelling units (MDUs) under its "J:COM In My Room," program, which is designed to convert MDUs into a stable revenue source. In addition, the J:COM Group endeavored to provide a service package centering on high-speed Internet access and telephony, developed especially for approximately 200,000 small and home offices (SOHO) within the Group's service areas. The J:COM Group also concentrated resources on extending its networks in order to increase the number of homes passed ("homes passed" refers to the number of households that can be connected through lines that have been laid for cable television, high-speed Internet access and telephony). In August 2006, the J:COM Group acquired a controlling interest in Cable Net Shimonoseki Co.,Ltd., formerly an equity-method managed affiliate. On September 28, 2006, the J:COM Group acquired shares of Kansai-based CATV operator Cable West Inc., which were held by Matsushita Electric Industrial Co.,Ltd. and Kosaido Co.,Ltd., as well certain shares held by minority shareholders, and thereby making Cable West a consolidated subsidiary. Cable West was the third-largest domestic operator, and is J:COM's largest acquisition since our listing on the JASDAQ Exchange. The Cable West group consists of 6 managed franchises and an MSO, and operates in 9 wards in the city of Osaka as well as 11 cities and 1 town in the northern part of the Osaka prefecture. The total number of customers is 357,800* as of the end of September 2006, increasing the total number of customers of the J:COM Group to approximately 2,500,000* as of the end of September, 2006. By making the Cable West acquisition, J:COM increased its market share for domestic cable television from 30% to 35% (as estimated by J:COM), which strengthens its competitiveness. By Cable West joining the J:COM Group it expands the number of homes passed in J:COM's service area by 1,397,700* from approximately 7.64 million households to approximately 9.04 million households* as of the end of September 30, 2006. In addition, the J:COM Group expects operational synergies such as a reduction of operational costs through the sharing of facilities with its existing subsidiaries, joint procurement of programming, equipment and materials, economies of scale, and more efficient sales and marketing. With a new Kansai-region strategy in sight, J:COM will make efforts to become a significant contributor to the development of the region and industry.

In terms of value strategy, with the aim of increasing ARPU (average revenue per unit) and reducing churn rates, the J:COM Group further promoted to offer bundled services, in which the three services provided (J:COM TV, J:COM NET, and J:COM PHONE) are combined into a single package. The J:COM Group promotes subscription to J:COM TV Digital service and the shift to the digital service from analog. As a result, the number of subscribers to J:COM TV Digital, excluding Cable West, surged to 842,800 as of the end of September 2006, resulting in a digital service ratio of 47.4%. Its digital video recording (DVR) service "HDR," which was introduced in April 2006 and enables recording of high-definition broadcasting to an internal hard drive, has been well received by our customers due to its features and strong value. The J:COM Group received more than 50,000 applications for the HDR service in the five months since it began accepting applications. In addition, the J:COM Group continued to endeavor to expand appealing content for its video on demand service "J:COM On Demand." In August 2006, the Group introduced MoviePlus HD, a cable TV operator-exclusive high-definition channel and made a decision to introduce KBS World in October 2006, which consists mainly of Korean dramas.

* Subscriber information for Cable West Inc. is preliminary and subject to adjustment until we have completed our review of such information and determined that it is presented in accordance with our policies. The services Cable West provides are different from those under J:COM brand.

Through these activities, the J:COM Group strives to differentiate and enhance the attractiveness of its cable TV services. On the Internet access service, the J:COM Group strengthened sales and marketing activities for a new Internet access service called "J:COM NET Hikari," which was introduced in August 2005, with access speed of up to 100Mbps to residents of MDUs. In March 2006, the J:COM Group launched its mobile phone service, in alliance with WILLCOM, Inc. Furthermore, the J:COM Group established two new call centers in Sapporo and Fukuoka, each responsible for outbound calls to existing subscribers. The call centers focus is on raising customer satisfaction, boosting ARPU and lowering churn rates through the introduction of services based on the tastes of each subscriber.

In August 2006, the J:COM Group began offering a new service to program suppliers called "Digital Viewership Ratings." This service offers the viewership ratings of multichannel digital broadcasts that are being made available for the first time on a full-scale basis, and the J:COM Group hopes this service will contribute to increase the number of subscribers to multichannel broadcasts by enabling programmers to more fully customize channels and show producers to tailor content based on audience preferences.

The number of J:COM Group customers connected, excluding the Cable West group, has increased from September 30, 2005 by 276,400 (15%) to 2,141,400 as of September 30, 2006. The breakdown per service and the increases from September 30, 2005 are as follows: cable TV increased by 203,600 (13%) to 1,778,000 revenue generating units (RGUs), including digital TV services which increased by 348,500 (71%) to 842,800 RGUs and occupy 47% of cable TV RGUs. High-speed Internet access and telephony services, increased by 161,400 (20%) to 953,100 and by 198,200 (23%) to 1,052,600 RGUs, respectively. RGU per customer also increased to 1.77 at September 30, 2006 compared to 1.73 at September 30, 2005.

As a result of subscriber growth, subscription fees increased by ¥22,273 million, or 19%, to ¥141,617 million. Other revenue increased by ¥2,216 million, or 16%, to ¥16,285 million for the nine months ended September 30, 2006. As a result, total revenue increased by ¥24,489 million, or 18%, to ¥157,902 million. The effect of acquisitions accounted for approximately ¥8,313 million of such total revenue increase.

Operating and programming costs increased by ¥9,401 million, or 17%, to ¥64,215 million. The effect of acquisitions accounted for approximately ¥1,556 million, or 17% of such increase in operating and programming costs with the remaining increase primarily the result of a ¥3,337 million increase in programming costs associated with the 13% increase in the number of cable television subscribers, excluding Cable West, and ¥695 million increase in maintenance expense.

Selling, general and administrative expenses increased by ¥4,642 million, or 17%, to ¥31,398 million. The effect of acquisitions accounted for approximately ¥3,734 million, or 80% of such increase with the remaining increase primarily attributable to increased salary, wages and other employee related costs, partially offset by decreased marketing and advertising expenses.

Stock compensation expense decreased by ¥2,364 million, or 89%, to ¥287 million. In January 2006, the Company adopted the provisions of Statement of Financial Accounting Standards No. 123(R), Share Based Payment (SFAS No. 123R), applying the modified prospective method. The adoption of SFAS No. 123R primarily resulted in a change in our method of recognizing the fair value of share-based compensation and estimating forfeitures for all unvested awards.

Depreciation and amortization expenses increased by ¥5,755 million, or 18%, to ¥37,242 million. The increase was primarily attributable to additions to the fixed assets related to the installation of services to new customers, the expansion and upgrade of our networks, and ¥2,543 million of the increase related to acquisitions.

Operating income increased by ¥7,055 million, or 40%, to ¥24,760 million.

Interest expense, net, decreased by ¥1,649 million, or 40%, to ¥2,489 million. This decrease is primarily due to the repayment of our ¥50 billion subordinated loan facility in March 2005, reduced margins under the current bank facility, and reduced bank fee amortization.

Income before income tax was increased by ¥8,360 million, or 61%, to ¥22,016 million.

Net income for the nine months ended September 30, 2006 decreased by ¥311 million, or 2%, to ¥13,658 million for the reasons set forth above.

(2) Financial situation

As of September 30, 2006, cash and cash equivalents balance was ¥9,903 million, a decrease of 74% (of ¥28,052 million) compared to September 30, 2005.

The following is a summary of cash flow during the interim period ended September 30, 2006 as compared to the interim period ended September 30, 2005.

Cash Flows from Operating Activities

Net cash provided by operating activities amounted to ¥52,502 million, an increase of ¥9,585 million compared to net cash provided in the previous period of ¥42,917 million. This was primarily the result of a ¥10,447 million increase in operating income before depreciation, amortization and non-cash stock compensation charges.

Cash Flows from Investing Activities

Net cash used in investing activities amounted to ¥96,966 million, an increase of ¥55,717 million compared to net cash used in the previous period of ¥41,249 million. The increase was primarily attributable to a ¥10,847 million increase in capital expenditures and a ¥46,178 million increase in the acquisition of new subsidiaries, net of cash acquired, and the acquisition of minority interest in consolidated subsidiaries.

Cash Flows from Financing Activities

Net cash provided by financing activities amounted to ¥19,084 million, a decrease of ¥6,783 million compared to net cash provided in the previous period of ¥25,867 million. The net cash provided by financing activities for the nine months ended September 30, 2006 primarily consisted of ¥76,139 million increase in short term loans and long-term debt primarily obtained to fund the Cable West acquisition and refinance certain long-term debt, offset by ¥49,620 million in principle payments of long-term debt and ¥6,647 million principle payment of capital leases. The net cash provided by financing activities for the nine months ended September 30, 2005 primarily consisted of ¥90,980 million from the proceeds on the issuance of the common stock and repaid ¥59,032 million in long-term debt and ¥8,885 million of principal on its capital leases.

(3) Forecasts for the year ending December 2006

The forecasts that were previously announced by the Company on January 30, 2006 have been updated as follows, with revisions explained.

(Millions of yen, except percentages)				
	Revenue	Operating income	Income before income taxes	Net income
Last disclosure (A)	220,000	31,500	27,000	18,500
Forecast (B)	221,000	31,500	27,500	19,500
Change (B-A)	1,000	—	500	1,000
Change %	0.5%	—	1.9%	5.4%

(N.b.) Estimated net income per share (annual): 3,062.09 yen

Considering our actual business results for the nine months ended September 30, 2006 and estimating the results for the fourth quarter of 2006, which includes the Cable West group, we anticipate an increase in revenue of ¥1,000 million, operating income to remain unchanged at ¥31,500 million, income before income taxes to increase by ¥500 million and net income to increase by ¥1,000 million, as compared to our last disclosure.

(Cautionary note regarding future-related information)

The forecasts contained in this report have been prepared on the basis of information that is currently available. Because such estimates are inherently very uncertain, actual results may differ from the forecasts. The Company does not guarantee that it will achieve these estimated results and advises readers to refrain from depending solely on these forecasts. Readers should also note that the Company is under no obligation to revise this information on a regular basis.

Segment Information

(1) Operating segments

The Jupiter Telecommunications Group (the Company and its consolidated subsidiaries) has determined it has one reportable segment "Broadband services". Therefore, information on operating segments is not required in this section.

(2) Segment information by region

Because the Company does not have any overseas subsidiaries or branches, this section is not applicable.

October 25, 2006

**J:COM Gunma and J:COM Kanto to Merge,
Creating 400,000 Subscriber System**

Tokyo, Japan—Jupiter Telecommunications Co., Ltd. (J:COM; JASDAQ: 4817) announced today, by a resolution of its board of directors, the merger of two wholly-owned consolidated subsidiaries, J:COM Gunma Co., Ltd. (J:COM Gunma) and J:COM Kanto Co., Ltd. (J:COM Kanto), with the latter as the surviving entity. The merger will be effective December 1, 2006.

As J:COM group operating companies, both J:COM Kanto and J:COM Gunma have been providing J:COM's array of multi-channel cable television, high-speed Internet access, primary fixed-line telephony and mobile phone services in the Kanto region. By merging the two, J:COM group seeks to enhance management efficiency to better maintain growth and compete more effectively in a rapidly evolving competitive landscape.

When the two companies are fully integrated, J:COM Kanto will be one of the leading franchises in the Kanto area, serving approximately 400,000 subscribers and 1.2 million homes passed. With a more significant branded presence, J:COM Kanto will be more recognizable as a community resource and leading provider of services to local customers. J:COM Kanto will also benefit from operational efficiencies once the two are combined, with a stronger financial position and greater management synergy.

(1) Merger Schedule

General Shareholders Meetings at both Companies: November 1, 2006 (*planned*)

Merger Date: December 1, 2006 (*planned*)

(2) Merger Method: J:COM Kanto Co., Ltd. to remain as the surviving entity

Profile of Merging Companies

Company name	J:COM Kanto Co., Ltd (surviving entity)	J:COM Gunma Co., Ltd.
Business operations	Cable television services Telephony services High-Speed Internet connection services	Cable television services Telephony services High-Speed Internet connection services
Service areas	Tokyo: Itabashi , Nishitokyo , Higashimurayama , Kiyose , Kodaira , Higashikurume Kanagawa Prefecture Sagamihara (not all areas), Yamato (not all areas) Chiba Prefecture Abiko , Kashiwa , Kamagaya , Noda	Gunma Prefecture: Maebashi , Takasaki , Annaka
Date of Establishment	January 10, 1995	August 29, 1995
Headquarters	1-1-30, Shiba Daimon, Minato-ku, Tokyo	374, Takazekimachi, Takasaki, Gunma
Representative	Akira Ito, President & Representative Director	Shu Adachi, President & Representative Director
Paid-in capital	15.056 billion yen	2.752 billion yen
Fiscal year-end	December 31	December 31
Ownership	Jupiter Telecommunications Co., Ltd. 100%	Jupiter Telecommunications Co., Ltd. 100%

The merger will not affect J:COM's business results, as the two merging companies are both current consolidated subsidiaries.

About J:COM <http://www.jcom.co.jp/>

Established in 1995, Jupiter Telecommunications Co., Ltd. (J:COM) is Japan's largest multiple system operator based on the number of subscribing customers, serving 2.25 million*³ subscribing households (as of September 30, 2006) in the Sapporo, Kanto, Kansai, and Kyushu regions. Based in Tokyo, J:COM is a corporate entity that provides cable television, high-speed Internet access, telephony and mobile services to customers through 25 managed franchises (as of September 30, 2006) operating at the local level. The number of serviceable households or "homes passed" in J:COM franchise areas is approximately 8.17 million *³(as of September 30, 2006). J:COM's principal shareholder is LGI/Sumisho Super Media. J:COM is a public company, trading on the JASDAQ stock exchange under code No. 4817. For more information (available in English and Japanese), visit J:COM's website at <http://www.jcom.co.jp>.

*³Excluding the number of the subscribing households for Cable West Inc.
